

COMPANY PROFILE

Your Trusted Technology Lifecycle Partner

*Engineering Secure, Scalable & Intelligent
Technology Solutions Since 2003*

ACCELERATING BUSINESS GROWTH THROUGH INNOVATIVE TECHNOLOGY

We help organizations design, implement, secure, and optimize technology environments that drive operational excellence, business resilience, and sustainable growth.

By combining deep technical expertise, strategic partnerships, and regional experience, we deliver end-to-end technology solutions tailored to each client's business objectives.

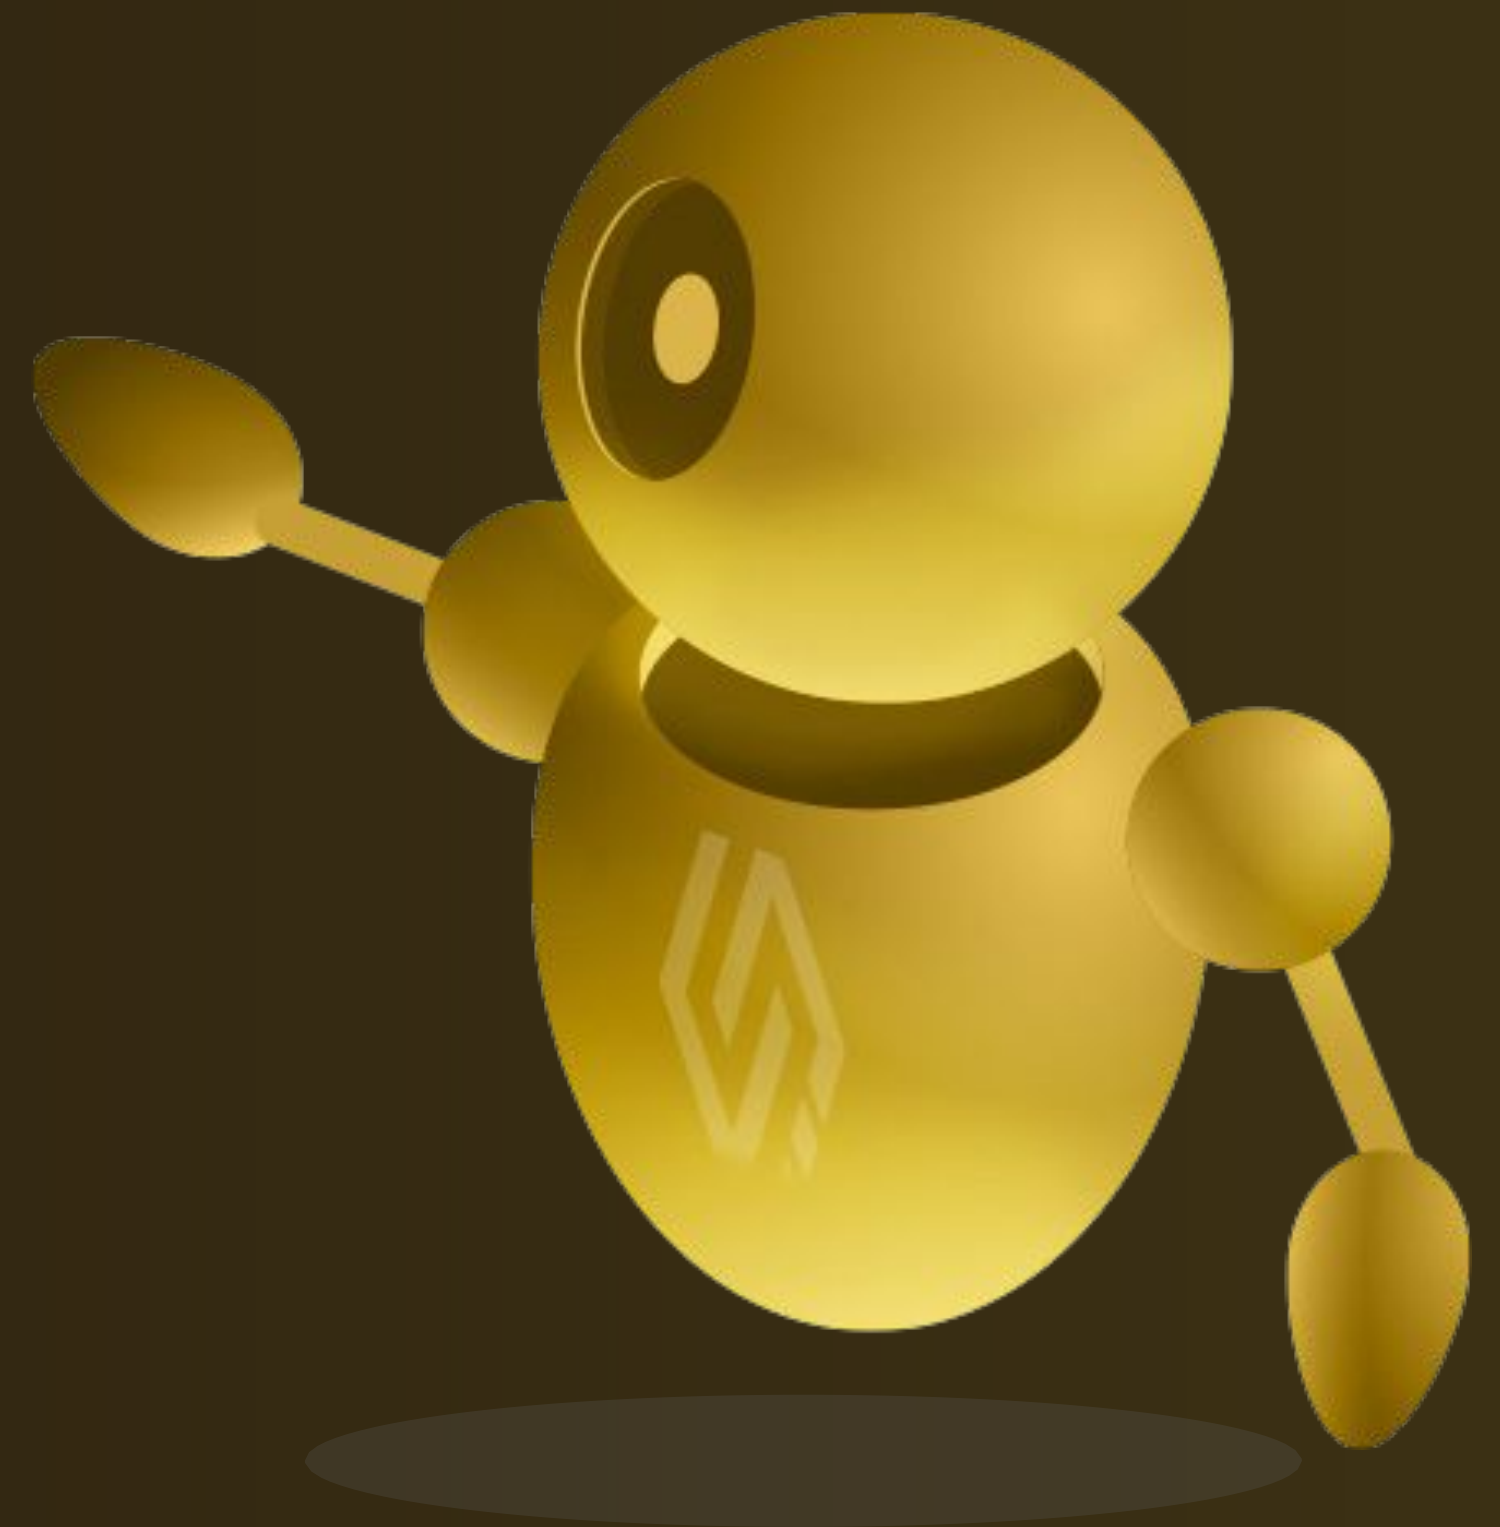

Executive Summary

Since 2003, we have been delivering innovative IT infrastructure, cybersecurity, cloud, and digital transformation solutions and services across the Middle East helping organizations achieve their business and technology objectives.

At a Glance

-  **20+ years of experience**
-  **Regional Presence** across KSA, U.A.E., Lebanon, Iraq, Oman and Syria.
-  **Multi-Industry Expertise** including Healthcare, Construction, Education, Government, Finance, and more.
-  **Strategic Partnerships** with Global technology Leaders.
-  **Certified Engineering Team** with expertise in Cisco, Fortinet, Microsoft, VMware, and other leading technologies.

Why Organizations Trust Us

Proven Regional Experience:

Trusted technology partner delivering successful projects across the Middle East since 2003

Certified Technical Experts:

Highly skilled multi-vendor engineers and solution architects with expertise across networking, cybersecurity, cloud, and infrastructure

Complete Technology Lifecycle:

Consult • Design • Build • Integrate • Support • Optimize

Regional Delivery:

Local presence enabling faster response, regional execution, and ongoing customer support

Quality and Compliance:

ISO-certified processes, structured PMO governance, and industry best practices in every management

Customer-First Culture:

Long-term partnerships focused on measurable business outcomes

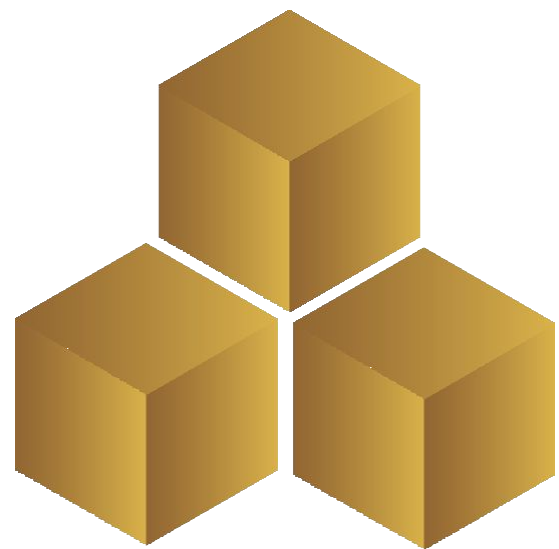

Strategic Technology Partnerships:

Strong alliances with leading global technology vendors to deliver best-in-class solutions

Business-Driven Outcomes:

Helping organizations improve security, efficiency, resilience, and operational performance through technology

Our Technology Portfolio

Enterprise Networking & Security Infrastructure

Delivering secure, resilient, and high-performing enterprise networks

- Load Balancing
- Bandwidth Optimization
- Application Performance
- Network Monitoring and Management
- Cloud Management Solutions
- WAN Optimization
- SD Networking

Cybersecurity & Risk Management

Protecting business-critical assets through proactive security

- SOC as a Service - SLAs
- vCISO Services with SLAs
- Governance, Risk, and Compliance (GRC) Services
- Technology Augmentation

Collaboration & Workplace Solutions

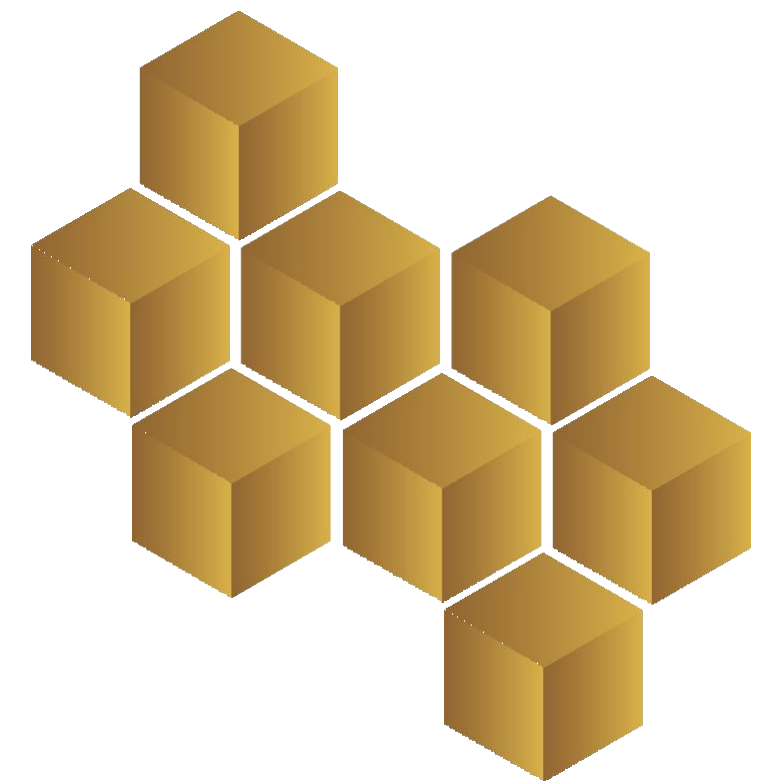

Empowering communication, collaboration and workforce productivity

- IP Telephony Solutions
- Contact Center Solutions
- Call Management & Control
- Telepresence & Conference Solutions
- Cloud Collaboration Solutions
- Budget Control Solutions
- Voice Mail Systems

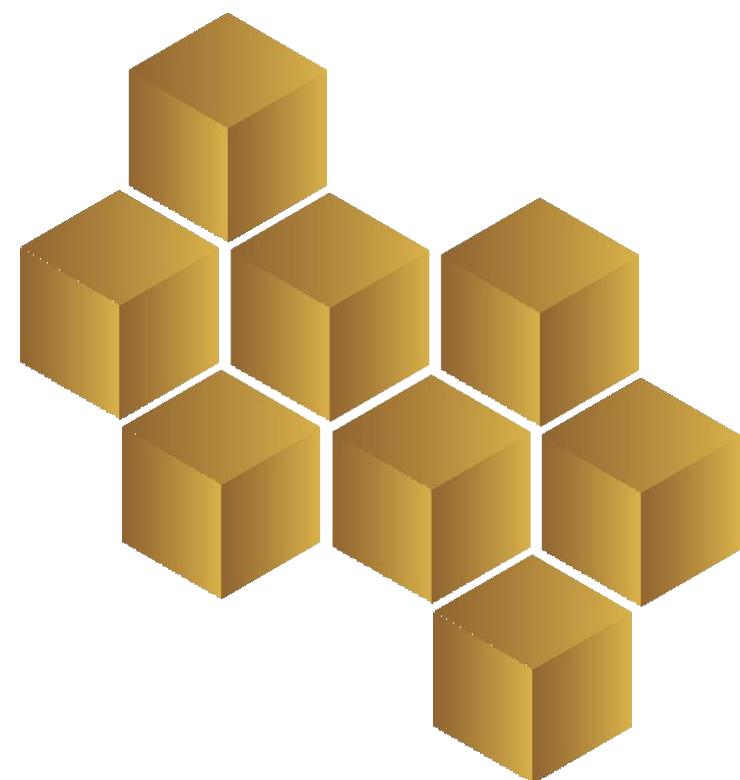

Cloud, Data Center & Modern Infrastructure

Building resilient, scalable, and high-performance environments.

- Storage Solutions
- Cloud Infrastructure
- Virtualization Solutions
- Software defined Datacenter
- Data Protection & Recovery
- HCI and non HCI Solutions
- Disaster Recovery
- Backup Solution

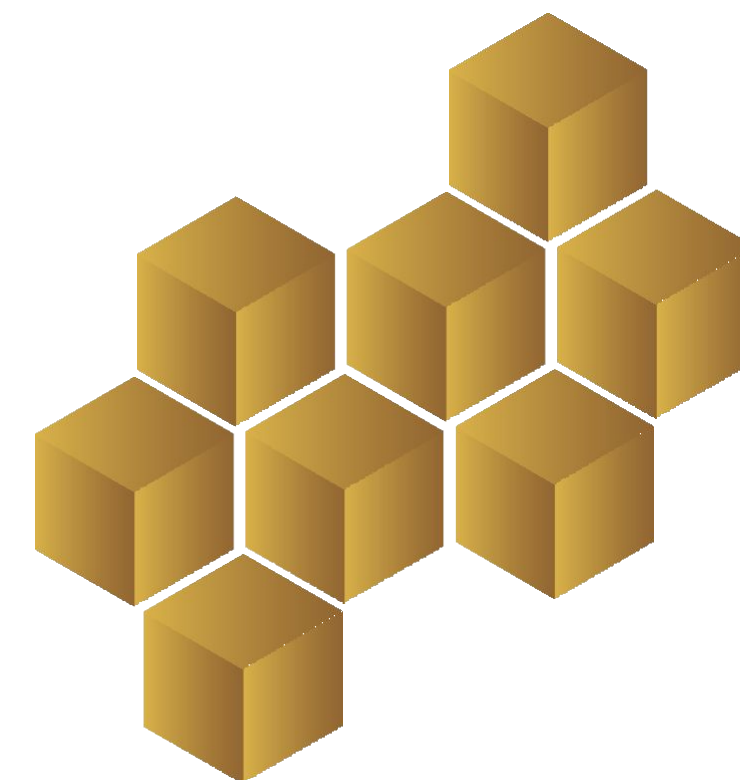

Our Technology Portfolio

Digital Transformation & Intelligent Automation

Helping organizations modernize operations

- Chatbot
- Data Lake
- Asset Management
- Robot Process Automation (RPA)
- Oracle Cloud Services
- Data analytics

Passive Infrastructure & Data Center Facilities

Designing reliable mission-critical facilities

- Raised Floor
- Monitoring System
- Fire Fighting System
- Cooling System
- UPS System
- Racks Infrastructure
- HW Racking and Stacking
- Structured Cabling Infrastructure
- Termination and Labeling
- Fluke Testing

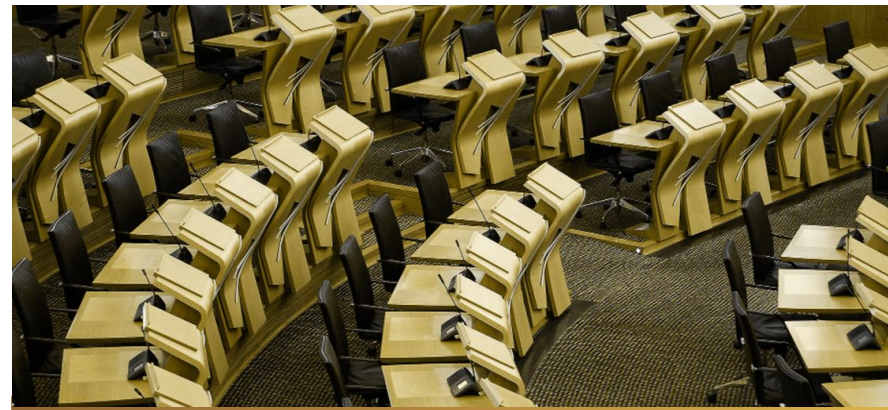

ELV & Smart Building Solutions

Connecting intelligent buildings through integrated technologies

- Support System
- Database Modeling
- Utility Telecom
- Digital Automation Systems
- Quality Execution
- Access Control
- Intrusion System
- Command & Control Solution
- Surveillance System
- CCTV Analytics

Operations & Logistics

HR, Finance, Procurement, Administration

Mission, Vision, Value.

Mission

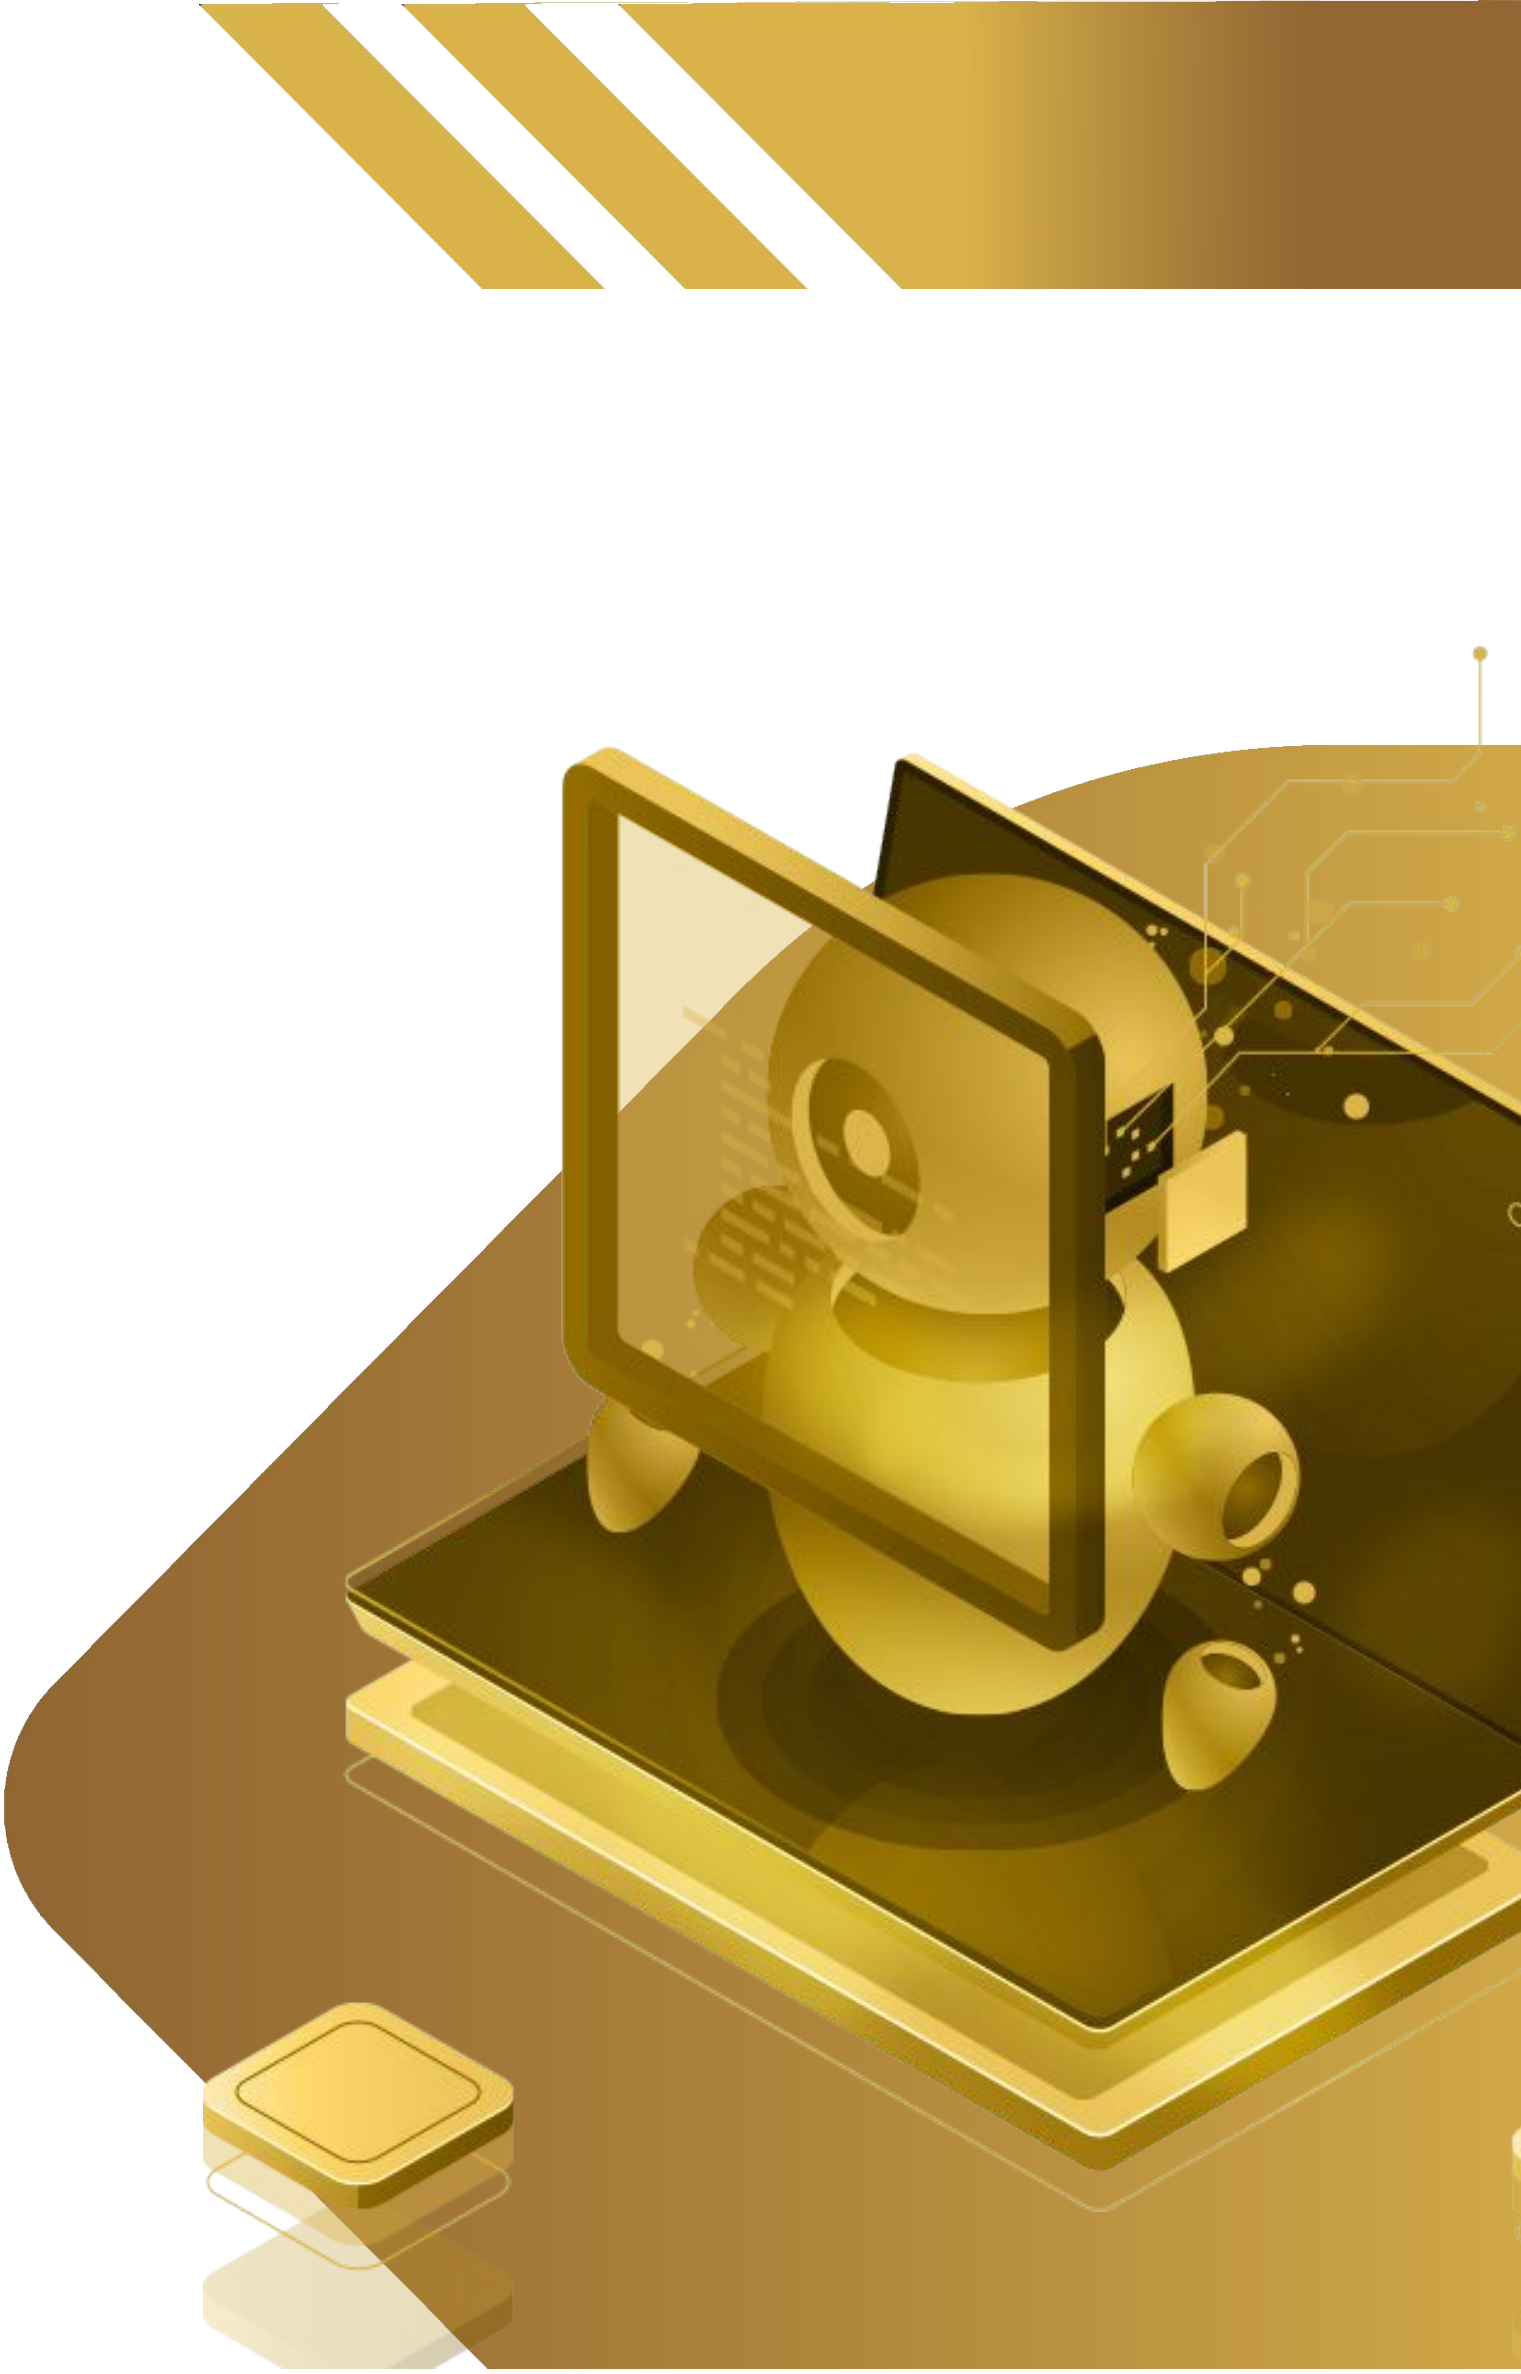

To empower organizations with secure, reliable, and innovative technology solutions that enable sustainable growth and operational resilience

Vision

To become the Middle East's most trusted technology lifecycle partner, recognized for engineering excellence, innovation, and long-term customer success

Core Values

Excellence	Delivering quality without compromise
Integrity	Built on transparency, trust, and accountability
Innovation	Modern, scalable, and creative technology solutions
Customer-First	A long-term partnership mindset
Agility	Fast adaptation to evolving customer needs and technology shifts

Innovation & Continuous Improvement

INNOVATION is embedded in every solution we deliver.

By combining emerging technologies, engineering excellence, and industry best practices, we help organizations modernize operations, strengthen cybersecurity, and accelerate digital transformation to deliver measurable lasting impact.
